Rappers Who Are Most Likely On Steroids

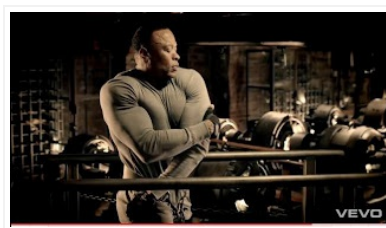

1. 50 Cent

MTV.com: The ongoing investigation into steroid trafficking that has already sent shockwaves through professional baseball is now reportedly looking at members of the music industry as well. According to a report in Albany, New York's Times Union, citing confidential sources, the names of Mary J. Blige, 50 Cent, Timbaland and Wyclef Jean have turned up in an Albany-based probe.

LL Cool J is famous for his platinum workouts and stuff but the truth is he has most likely been on steroids for a very long time. With the lifestyle of a rap singer and at his age "just genetics and hard workouts" don't quite cut it.

4. Busta Rhymes

Busta Rhymes is a pretty big dude, right? He also likes to hang out with guys like [Victor Martinez](#).

5. Melly Mel

just genetics ? I don't think so !.
