Shocking Transformation Of Women Who Took Steroids

Posted By: [Syeda Farah Noor](#) Updated: Friday, June 10, 2016, 23:30 [IST]

Drugs can ruin lives and have a life-changing effect on humans. Yet even after knowing the ill effects of drugs and steroids, we often see more and more people getting trapped into this dangerous practice.

Generally, intake of drugs starts off as a fun task for experience, but the person would never know when he/she is getting addicted to it. There are so many sports persons who have ruined their career due to the overuse of drugs.

In this article, we've shared stories about some of the famous women who've shocked the world with their sudden change in physique and even to the extent of sexuality.

From gaining muscles to developing a penis, these women have gone through the worst effects of taking an excessive amount of steroids.

Find out more about these interesting cases of how steroids have changed the lives of these women. Read on to know more.

A Thin Girl Who Is Now A Bodybuilding Guru

Monica Mollica/Mowi is a Swedish bodybuilder who started working out at the age of 14 years. She currently offers diet and supplement counselling for people. Her picture shows an amazing transformation, isn't it?
